## 1. INTRODUCTION

Majuli College was established in the year **1962** and in the same year the library was also established. The library moved to its present building in **1998** and renamed as “ **ATUL CHANDRA GOSWAMI LIBRARY** ” in the year **2012**. The Library plays very important role in providing required resources for students and the teachers. The Library is located in the first floor of the Library Building. The library is well-equipped with Texts and Reference Books. There are also a good number of collections of Journals, Periodicals, Manuscripts, Encyclopedias and e-resources under **N-LIST** programme etc. Many books which are out of print are also there in the Library. At present the library has over **28,000** volumes of books.

The library is well-equipped with modern facilities. The library caters to the needs of about 2,000 readers consisting of teachers, students, employees, research scholars, Distance Education and KKHOU students etc. The library has a special collection of books on **Majuli**. For the last five decades the library has been the life-line of the academic activities of the college. The total expenditure incurred on purchasing books, journals, News papers and e-journals in the five years is **Rs.7,40,265/-**. The library has been used by a number of students per day. The attendance of students in last six years is given in the table.

## 9. LIBRARY USING RFID TECHNOLOGY

The A C Goswami Library has been upgraded with the **RFID** (Radio Frequency Identification) technology to secure its collection in the year **2022**. It is the first College library in Upper Assam using RFID Technology enabling self-issue and returned facility and single Anti-theft gate security system. It increase user-friendliness efficient and accurate service and to reduce library operational costs. RFID technology is the best technology which can be used in the library so as to provide efficient, faster and accurate service to its users. The library management system consists of books, each attached with an RFID tag, RFID reader, Computer Network and software.

## 1. Objective:

- (I) Provides efficient, faster and accurate service to its users.
- (II) Improve the image of Library with a complete RFID Infrastructure and implement user-friendliness systems in library.
- (III) Solves the shortage of human resource in the library
- (IV) Upgrade manual system of library with a modern and highly standardized RFID Technology.
- (V) Provide users self-service facilities in library.
- (VI) Improved utilization of resources like manpower, infrastructure etc. and provide security with the long lasting labels and tag system
- (VII) Saves the time of the library user

## 10. MAJOR COMPONENTS OF RFID USED IN THE LIBRARY

### (I) RFID SECURITY GATE.

RFID Gate will protect the unauthorized movement of books from library. If Books taken out without permission from library, then it will create alarm once book passes the gate. Thus it can prevent the theft of books from library. It is the best way that we can save so many rare collections and important books of library.

## **(II) MULTI-PURPOSE STAFF STATION.**

Multi-Purpose Staff Station has many functionality, it can activate new member cards, it can de-activate cards if user have lost it, It can issue or return books manually from it, in case of any systems failures

## **(III) OPAC Kiosk**

Online Public Access Catalogue will help the users to view availability of books in the library. Thus users can visit the library as per availability of books.

#### **(IV) SELF- SERVICE ISSUE-RETURNED KIOSK**

The Self Service Station provides a powerful, flexible package that enables users to manage their own transactions easily and efficiently. It simplifies the checkout, check-in and renewal process, helps eliminate waiting lines, ensures patron privacy and increases patron satisfaction.

## **(V) TAGGING STATION.**

Tagging station is used for encoding of books details in the RFID Tags, pasted on the books. For tagging station we used high quality RFID Readers.

## **(VI) RFID TAGS:**

RFID tags are thin paper labels stickers. This tag contains memory space where details of the books get encoded at the time of tagging of books.

## **(VIII)RFID MEMBER SMART CARDS**

RFID member cards are card embedded with chips, where details of the member get encoded in it and images and personal details can be printed on it.

## **(IX) RFID CARDS PRINTERS :**

Evolis card printer is one of the best card printers available in market today. This printer is used for printing library member's cards, i.e. RFID Cards.

## 21. LIBRARY ACTIVITIES:

### 1. LIBRARY ORIENTATION PROGRAMME

A C Goswami Library organizes library orientation programme for the new comer students in the beginning of the academic year. The main aim of this programme is to make the new member more familiar with the library resources, service and rules and regulation. So that, they can avail library service up to a great extent.

## 2. RARE MANUSCRIPTS DIGITIZATION:

*The Satras of Majuli are depositories of a large number of valuable religious and cultural Documents and articles of great historical values.*

**-E.F. Mullur**

In Majuli, Manuscripts are preserved in different Satras. In the middle of the Fifteenth century, Srimanta Sankaradeva and his disciple Sri Madhabdev initiated the Vaishnava Renaissance in Assam. The Neo-vaishnavism is credited for the establishment of Satras and Namghars in Majuli. Srimanta Sankaradeva and Madhabdeva along with other disciples wrote different plays ('AnkiyaNaats'), Borgeet etc. The Satras and Namghars are the principal repositories of manuscripts written on Sanchipat, Tulapat etc.

A C Goswami Library has been conducting a project called "*Digitization of Rare Manuscripts*". As a part of the project, we propose to digitize the Manuscripts in the Satras of Majuli and make them accessible to user only for academic purpose. It indeed will be a great service not to the college, but to the entire island. Around 700 copies of rare manuscripts have been digitized.

Majuli College, Library,

05/02/2013

We didn't expect to find such a rich and nice library here in the island. We are very happy to see the veracity of books and to meet people that respect education and culture. Defenatly, we will come again!

## 22 .LIBRARY STANDARDS

Maintaining of library standards is very important for any library. Presently library is using International bibliographic standards for classification, database creation, etc.

Metadata Format

- For Library Automation **MARC 21 as per LOC**
- For Digital library cum IR **Dublin core metadata**
- Bibliographic Description **AACR 2(R), ISBD**
- Classification Scheme **DDC 22 edition**

## 23. E-RESOURCES

The Technological advancements offer new method of information processing, retrieval and dissemination of knowledge. The resources are found in various format like E-books, E-journals and online Data base, CD-ROMS etc. A C Goswami Library has opened E-journals and E-books facilities from **2014** by which Library users will have access to e-resources **6,000+ E-journals and 1,99,500 + e-books under N-LIST and 6,00000 e-books** through NDL. Our college admin can perform certain e-resource management tasks like creating username & password, collecting usage statistics, etc through the platform developed by INFLIBNET centre.

Open Access Resources	
• About Open Access	<a href="http://oaresources.php">oaresources.php</a>
• Open Access E-Journals	<a href="http://oaresources.php#ejournals">oaresources.php#ejournals</a>

## 25. LIBRARY DATABASES

Creation of databases is one of the important challenges for any kind of library. Database of the College library is prepared in such a way that even small components are added to it like places, publishers, ISBN, Title, Author, etc. Library is using SOUL 2.0 software developed by INFLIBNET centre for creating and maintaining its databases. The library has created two groups of databases: one is for Automated Library and another is for Digital cum Institutional repository.

### I. Automated Library

#### 1. Book Database

- a. Total No of Book ID : 11,441
- b. Total No of Volumes : 16,173

#### 2. User Database

- a. Staff: 70+
- b. Students: 1300+

### II. Digital Library

- a. Question papers, Local history, College Publications, etc

## Conclusion:

RFID is one of latest technology used in Library. Many aspects of technology supporting the automation of library. Use of RFID Technology has changed the image of library in the college. Now with this technology users can Issue or Return books by their own. It also has security features i.e. RFID Gate Antenna, by which library staff can protect the theft of books from library. It provides monitoring and searching system. The monitoring module will continuously monitor the movement of books across the gates, so that the books taken out without prior issuing will be traced out easily.

In the age of Information Technology, digital resources can make the library “*paperless*” in future. Earlier the user’s goes to the library but today library goes to the users.
