## A Summary of Project Work in flood prone areas of Majuli.

### Introduction

The students of B.A. 6th Semester, Department of Geography, Majuli College, conducted Project Work in flood prone areas of Majuli District from 22-05-2022 to 26-05-2022 as a part of their syllabus on Disaster Management based Project Work under the guidance and supervision of Prasanta Saikia, Dr. Jaya Kalita Gogoi and Acharya Mohan Das.

### Objectives

The purpose of the project work is -

- 1) To study the flood affected areas of Majuli as (Majuli is the place to show some extent of hazard that is flood)
- 2) To examine the socio-economic structure of the study area i.e. is flood affected places.
- 3) Student got an opportunity to know the indigenous method to mitigate the flood.

### Analysis

The students of the 6th Semester visited the flood prone areas of Majuli. The class was divided into four groups and students were divided accordingly. The villages which were selected for the project work were Salmora,

Alimura Bamun Gaon, Pohardia Gaon and Nambotiamarai. The students collected data on physical landscape and socio-economic status and completed the report.

Students of B.Sc. 4<sup>th</sup> Sem (Dept. of Botany) of Hajuli College, originating an educational tour field visit to Kargil National park, Gulabghat on 10/06/2022 to 11/06/2022. The tour was a part of their academic routine and it was guided by Mrs. Indira Barch, HOD Dept of Botany, Dr. Juli Goenri Asst. Prof. Dept. of Botany & Dr. Md Amineul Islam Asst. Prof. Dept of Botany. The main objectives of the tour was to familiarise students with different angiospermic plants, collection of plants for herbarium preparation and familiarise students with ecology of different sites.

On the first day (10th June, 2022) students visited Kalyanagar National Orchid and Biodiversity Park. The park is located at the distance of 2 km from central range of Kalyanagar. The park boasts of having more than 500 varieties of wild orchids, different traditional medicinal plants, different species of bamboo and other plants.

Then they visited the area close to Kagoirang in the Karbi Anglong region, where they observed coffee and rubber plantation.

After watching coffee and rubber plantations they went to elephant feeding centre at Hihimeeth. They observe different ecosystem - Kari range is a vast tall elephant grass marshland, and dense tropical moist broadleaf forest etc.
