Social Science Research (NERC, Shillong)

Sponsored

National Seminar

On

**Sustainable Use of Wetlands Ecosystem:
 Challenges and Best Practices for
 Conservation & Management with Special
 Focus on NE India**

21st & 22nd March, 2025 (BLENDED MODE)

Organized by

Department of Botany

Department of Education

Department of Geography

in

Collaboration with IQAC, Majuli College

Website: www.https://majulicollege.in

Venue

Majuli College, Kamalabari, Majuli, Assam-785106

ABOUT THE COLLEGE

Majuli College is a premier higher education institution located at Kamalabari, Majuli, a river island in the Brahmaputra River in the state of Assam, India. It was established in 1962 and is affiliated with Dibrugarh University. The college offers undergraduate courses in Arts, Science, and B.Voc. (IT) streams. Majuli College is recognized by the University Grants Commission (UGC) under Section 2(f) and 12B of the UGC Act, 1956.

ABOUT ICSSR

The Indian Council of Social Science Research (ICSSR), established by the Government of India in 1969, is dedicated to promoting research in social sciences across the country. ICSSR provides grants for various research-related activities such as projects, fellowships, international collaborations, seminars, conferences, and publications. The Council plays a vital role in sponsoring research programs, offering scholarships, promoting interdisciplinary research, and supporting publications in the field of social sciences. In pursuance of the above targets and as part of its programme of decentralizing administration and broad basing social science research, ICSSR took, in the past, a considered decision to set up regional centres all over the country. The North Eastern Regional Centre of the Indian Council of Social Science Research (ICSSR-NERC) was established on March 2, 1977 in collaboration with North-Eastern Hill University (NEHU) at Shillong. The Centre has its office complex at the NEHU Campus and an Advisory Committee headed by the Vice-Chancellor, NEHU, Shilling.

ABOUT THE SEMINAR

Wetlands are crucial in maintaining ecological balance, supporting biodiversity, and providing livelihoods for local communities. The conference is being organized in a blended mode to perceive the data, information, traditional techniques, new ideas, innovations, etc. for further research on wetland conservation. The seminar will focus on exploring innovative approaches and practices for conserving and managing wetlands in Northeast India. It will also provide an opportunity to examine the role of traditional ecological knowledge, community-based management, policy and governance structures, and technological innovations in addressing the challenges facing wetlands in the region. The seminar will bring together experts from diverse fields, including ecology, environmental science, policy, economics, sociology, and political science, to foster and promote interdisciplinary research.

SUB-THEME

- ✓ ***Natural Resources and Wetlands.***
- ✓ ***Ecosystem & biodiversity conservation.***
- ✓ ***Geodiversity and community engagement.***
- ✓ ***Conservation policies and their effectiveness.***
- ✓ ***Environmental Education and wetlands.***
- ✓ ***Social dimensions of wetland conflicts.***
- ✓ ***Restoration techniques and success stories.***
- ✓ ***Cultural landscapes and ecotourism.***
- ✓ ***Wetland ecosystems and carbon sequestration.***
- ✓ ***Indigenous Knowledge System (IKS) in Wetland Management.***
- ✓ ***Biodiversity and ecosystem services of wetlands***
- ✓ ***Role of Wetlands in Assam's Socio-economic life***
- ✓ ***Any other topics related to the theme***
